

Energy Efficient LED Display Lighting

TOTAL ECLIPSE™

ULTRA LOW PROFILE

DESCRIPTION

Total Eclipse™ was engineered and designed to replace standard T-12 and T-8 fluorescent lamp fixtures. The most common applications include: shelf lighting, display lighting, display case lighting and general purpose lighting.

APPLICATIONS

- Shelves
- Displays
- Display Cases
- Refrigerated Display Cases
- General Purpose
- Beverage Cases
- Soffits

FEATURES

- Latest generation of LED components and optics
- Lowest thermal heat signature
- Available in 1', 2', 3', 4', 5' and 6' lengths
- Class 2 external power supply 120 - 277 VAC
- Color temperatures from 2700K to 5000K
- Engineered to replace standard T-12 & T-8 fluorescent lamp fixtures
- LED engine and driver system engineered for maximum component life
- Greatly reduced compressor load
- Greatly reduced energy, maintenance and total life cycle costs
- Optional dimming kit available
